The Indiana Department of Environmental Management (IDEM) has received a hazardous waste permit renewal request from:

Lighting Resources, Inc.
498 Park 800 Dr., Greenwood, IN
IN0000351387

Lighting Resources is a facility that accepts mercury containing lamps and devices. A portion of the incoming material is classified as hazardous waste and this material is stored in containers prior to the mercury recovery process.

IDEM has reviewed the permit renewal application, and has drafted a proposed permit. The draft permit describes how the facility must manage hazardous waste in order to comply with State and Federal statutes and rules. A copy of the permit renewal application, draft permit, and Fact Sheet are available for your review at:

- Greenwood Public Library, 310 S. Meridian St., Greenwood, IN
- IDEM Virtual File Cabinet at: <http://www.IN.gov/idem>.

The draft permit and Fact Sheet may also be viewed at: www.IN.gov/idem/5474.htm.

The IDEM is providing the public an opportunity to submit written comments and/or request changes to the proposed permit conditions.

You may request that IDEM hold a public hearing. At a hearing, you would have an opportunity to submit written comments, ask questions, make statements, and otherwise discuss any concerns about the permit with IDEM staff. If a public hearing is held, IDEM will make a separate announcement of the date, time, and location of that hearing/meeting 30 days in advance.

Written comments with supporting documentation, or a written request for a public hearing, should be mailed to Ms. Paula Bansch at the following address:

Indiana Department of Environmental Management
Office of Land Quality
Hazardous Waste Permit Section
